## **Good Energy Solutions Recognized Among Kansas City's Fastest-Growing Companies As Part of Ingram's Magazine 2020 Corporate 100 Listing**

**July 20, 2020** – Good Energy Solutions is pleased to announce that we have been named a winner in Ingram's 35th Annual Corporate Report 100 competition which ranks KC's 100 fastest-growing businesses. With over 75,000 businesses within the region, organizations listed rank among the top 1% in terms of growth.

The report measures growth between fiscal 2016 and 2019. The listing is open to public and private for-profit companies within the 22-county metro area, with at least \$200,000 in sales in 2016 and \$1 million in sales in Fiscal 2019.

"The threshold for entry now is four-quarter revenues of \$200,000 in the baseline year with revenues required in the first quarter, and \$1 million for the most recently completed comparison year," reported the magazine. Additionally, "What we have found over the decades—and this year is no different— is that growth is a result of a necessary combination of risk-taking, faith, timing, a little luck and mostly, a lot of hard work. None of the companies on this 35<sup>th</sup> list – or any of the previous 34 – got there by accident."

"At Good Energy Solutions, we strive to help people go green through solar, and we always seek to do so with the highest levels of quality and integrity. We feel fortunate to have grown rapidly over the years, giving us a chance to work with hundreds of customers in the Kansas City and the surrounding areas" said, Malcolm Proudfit, CFO/COO of Good Energy Solutions. President, Kevin Good, added, "Thanks to Ingram's for the recognition of our company. It is a testament to our employees' grit and determination to grow our business and help our customers power their world with the sun."
